

# How to fold paper for a snowflake.

Step 1

beginning with a paper rectangle, fold as above and cut off excess along green line

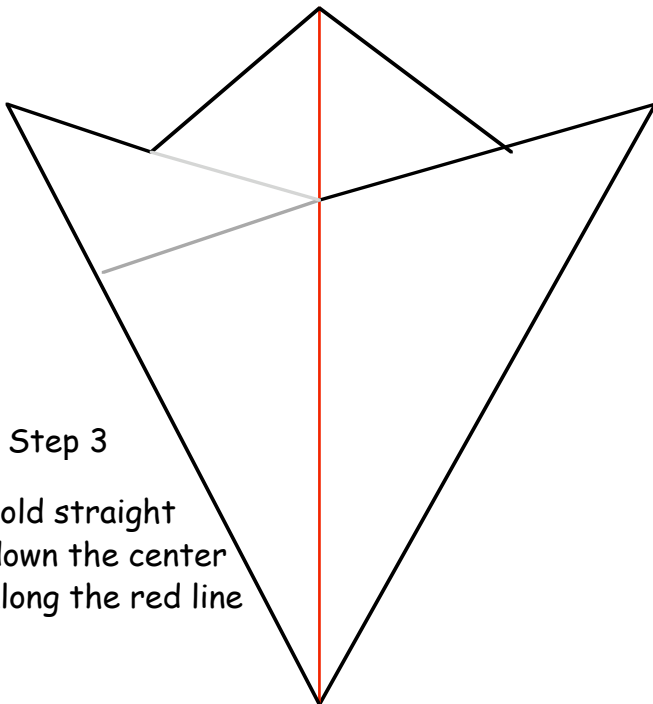

Fold on red lines  
Cut on green lines.

center

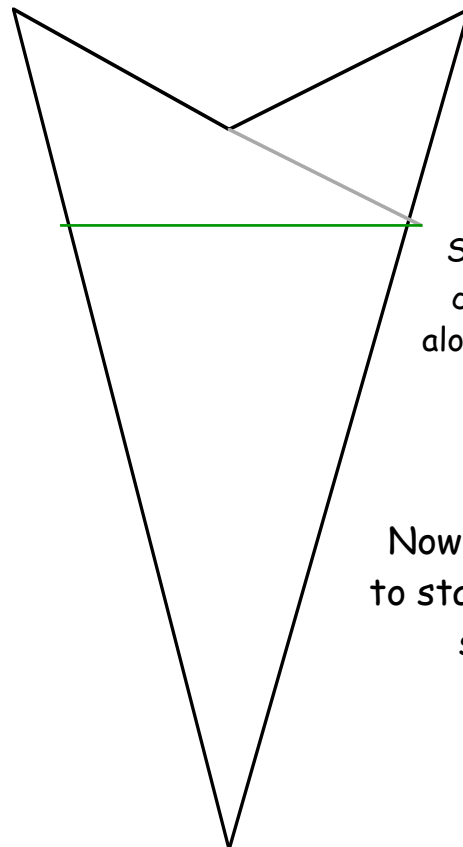

Step 2

with folded edge along the bottom, fold bottom right point up and along red line then do the same for the bottom left point

Step 3

fold straight down the center along the red line

Step 4

cut tips off along green line

Now you are ready to start cutting your snowflake!
