

# FOOTBALL GAME DIRECTIONS

1. Print out the football field and footballs and cut out the two footballs. (The game has more eye appeal if printed in color.)
2. Divide the class into two teams. Each team will place their football in opposite end zones.
3. You will need one die or a board game spinner with numbers. The number of yards a team moves their football is determined by the throwing of the die or spinning the spinner.
4. Have a "coin toss" to determine which team goes first.
5. The teacher will ask a review question from the lesson. If the team answers correctly, they get to throw the die or spin.
6. If the team answers incorrectly, the other team gets a chance to answer the same question. If they answer correctly, they get to throw the die or spin.
7. If neither team answers correctly, the teacher should review that portion of the lesson and then resume the game.
8. The game can be played with the first team to reach the opponent's end zone being the winner, or you could set a time limit for the game and keep score as you would in a regular football game.
